

# Measure...

Track business performance with Eureka Lite Stock Management Software.

Eureka Lite Version 4.0 Retail Management Software is a package designed for those people who do not need full stock control in their business. With links to a number of scale manufacturers, Eureka has become the system of choice for many retailers across the U.K. and Ireland. A brief overview of some of the functionality can be seen below.

## Software Features

Secure control of scale product information from the back office, enabling you to quickly make pricing changes on the scales. All product entry and pricing controls are based on easy to manage wizards with built in margin calculators.

Secure access to daily sales information and reporting on sales by nominal departments suited to your existing accounting structures.

Reporting on product data, sales performance, prices and margins; the system will produce a range of parameterised tabular reports, charts & graphs.

12 Months Care Pack included & CD with full tutorial on setup and operation of the software.

## Options available to purchase >>

- ▶▶▶ Eureka Labeller module for all your counter and shelf edge labels.
- ▶▶▶ Automation of your daily Z-Read. No need to be there to set it going.
- ▶▶▶ SMS Text Alerts (Available Autumn 2007): Be informed when you are not in the office.
- ▶▶▶ Cooking Times: Print cooking instructions on your scale labels. Encourage people to buy the product by knowing how to cook it!
- ▶▶▶ Product Sales Analysis by Area: Define areas of your shop and then compare product performance on a volume per area basis.
- ▶▶▶ Customer Accounts (Available Summer 2007)
- ▶▶▶ Branch Control (Available Summer 2007)
- ▶▶▶ Link to Accounts packages such as Sage.
- ▶▶▶ End-User Reporting tool.

## Minimum System Requirements

Windows 2000 / XP or Vista P.C. with 2GHz processor, 512 MB RAM, 2 GB of free disk space, CD or DVD drive, Video Card capable of 1024 \* 768 pixel resolution, A4 printer for reports (laser or inkjet), mechanism for backing up data. (This should be either a ZIP drive, a memory 'stick' with suitable capacity or writable CD/DVD)
