

## Combine...

Extend your Eureka solution with our restaurant / coffee shop module.

*Fare Enough is a package designed for those people who want to manage their restaurant / coffee shop. It fully integrates with Eureka software and provides a total solution from Table to Till, giving you easy access and control of the running of your business. A brief overview of some of the functionality can be seen below.*

### Software Features

#### ▶▶▶ TABLE ORDERING

Easy to use visual touch screen for all ordering, designed to be quick to use  
Self-formatting screen allows for easy and quick updating of table system and menus.  
Easily add to and amend the customer's order at any stage.  
Simultaneous multi user capability.

#### ▶▶▶ COMMUNICATION

Instant communication from touch screens or Hand Held to printers in kitchen, bar etc.  
Hard copy print out of table order foods to the chef with audible signal of docket issue.  
All processed orders saved in database – fully restorable in event of power failure.

#### ▶▶▶ BILLING

Full on screen billing, cash processing (Cheques, cards & Cash) & receipt issue  
Ability to take payment in multiple currencies.

#### ▶▶▶ MENU UPDATING

Menu changes easily and quickly performed in back office on database entry  
Changes instantly refreshed on Touch Screens avoiding uncomfortable delays for staff.

#### ▶▶▶ END OF DAY REPORTING

Automatic or manual Z-Read of days sales at close of business presented in hard copy print out (and archived) in departmental & nominal order according to configuration.  
Instant access to historical sales and menu performance in flexible, multi variable formats.
